1 Important Note

Center Console Refrigerator

If equipped, the center console refrigerator can only be powered on and accessed using the infotainment screen.

The refrigerator mode can only be used while the vehicle is in accessory power or on. If the vehicle is turned off and turned back on, the last refrigerator operating mode will be resumed.

A light inside the refrigerator turns on when the refrigerator doors are opened. The driver's side refrigerator door cannot open or close when the vehicle is in motion.

Caution: Do not put any objects between the front seats and the center console side walls. The air path could be blocked and cause the unit to stop working.

The bin wall will reach -15°C (5°F) while cooling. The operating temperature is 30°C (37.4°F).

Warning: Do not touch bin surfaces with wet or damp hands while the bin is cooling. Skin could stick to the bin surface.

The bottom mat is removable. Clean with water and mild soap.

Clean the refrigerator bin while the vehicle is turned off. Use a damp, soft rag and wipe the bin carefully. Do not scratch or puncture the bin surfaces. Ensure the bin is dry before turning the refrigerator on.

2 Caution

Radio Frequency Statement (US/CAN)

This vehicle uses license-exempt transmitters / receivers / systems that operate on a radio frequency that complies with Part 15/Part 18 of the Federal Communications Commission (FCC) rules and with Innovation, Science and Economic Development (ISED) Canada's license-exempt RSS(s) / RSP-100 / ICES-GEN.

Operation is subject to the following two conditions:

1. The device may not cause harmful interference.
2. The device must accept any interference received, including interference that may cause undesired operation of the device.

Changes or modifications to any of these systems by other than an authorized service facility could void authorization to use this equipment.

Radio Frequency Statement (MEXICO)

This vehicle has systems that operate on a radio frequency that complies with NOM-EM-016-SCFI-2015 or NOM-208-SCFI-2016 and National Radio Frequency Allocation Chart.

Operation of this equipment is subject to the following two conditions:

1. This equipment or device may not cause harmful interference.
2. This equipment or device must accept any interference received, including interference that may cause undesired operation.

Caution: The user is cautioned that changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s) and Part 15 of the FCC Rules.

Operation is subject to the following two conditions:

- (1) This device may not cause interference.
- (2) This device must accept any interference, including interference that may cause undesired operation of the device.

L'émetteur/récepteur exempt de licence contenu dans le présent appareil est conforme aux CNR d'Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes :

- (1) L'appareil ne doit pas produire de brouillage;
- (2) L'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC& IC Radiation Exposure Statement:

This equipment complies with FCC and Canada radiation exposure limits set forth for an uncontrolled environment. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

Déclaration d'IC sur l'exposition aux radiations:

Cet équipement est conforme aux limites d'exposition aux radiations définies par le Canada pour des environnements non contrôlés.

Cet émetteur ne doit pas être installé au même endroit ni utilisé avec une autre antenne ou un autre émetteur.
