4. Alipay (payment code)

4.1 Bind to Alipay

 Select Alipay in the list of watch apps, and operate according to the prompts on the screen, until the screen shows the scanning code to bind the QR code.

 Open the Alipay App, scan the QR code on the watch, and bind the watch according to the prompts.

 According to the Alipay App interface prompts, complete the binding operation.

 The watch can also be paid when the watch is disconnected from the phone, tablet, offline, or offline.

If the pocket money is not bound, the deduction order of using the QR code of the watch is the same as the deduction order set by mobile

Alipay itself.

4.2 Payment made by scanning the code

After the watch is successfully bound with the Alipay App, when shopping, you only need to swipe to the Alipay interface in the watch and show the Alipay QR code or bar code on the watch to the merchant to complete the payment.

In the watch app list or drop-down shortcut bar, select Alipay. Double-click the button under the watch to directly open Alipay and swipe around, select the QR code or bar code to pay, and the merchant can scan to complete the payment.
